FINANCIAL CORPORATION

May 1, 2018

Anova Financial has been forced to close down the North Carolina public funds program known as "Finistar" because it is no longer economically feasible with the number of North Carolina bank consolidations and that the remaining North Carolina bank rates are not competitive compared to other public funds investment options for the local government depositors. So in the best interest of our depositors and our company our board has made the decision to close all Finistar Accounts effective May 1, 2018.

On May 1, 2018 we will take out our fees for the month of April and then the balance will be returned to each depositor.

Thanks you for your business over the years. Please let us know if you have any additional questions.

Kim Winslow

President/CEO
